

A central photograph shows a welder in silhouette, wearing a protective mask and gear, working inside a large, circular metal tunnel. The welder is holding a torch that produces a bright, intense light and a shower of orange and yellow sparks that fill the right side of the frame. The interior of the tunnel is illuminated with a cool blue light, creating a strong contrast with the hot sparks. The overall scene conveys a sense of industrial precision and high-stakes work.

Mission Critical

Gases, Welding Supplies and Equipment

ACCURATE. ON TIME. AS PROMISED.

Large and small companies across California and the U.S. trust Encore for mission-critical gases, welding supplies and equipment to keep their operations running at peak performance without interruption.

Independent. Responsive. Customer Focused.

**Focused on
our customers,
not our
quarterly results.**

Encore Gas & Supply® (Encore Welding and Industrial Supply LLC), a privately owned, independent distribution company, was founded in 2014 in Signal Hill, CA.

From the beginning, the company's vision has been to return to the old fashioned values of **integrity, responsiveness and customer service.**

Today, Encore serves customers in a wide variety of industries across California and the U.S. The corporate headquarters is located in **Long Beach, CA** just a half-mile from the company's Specialty and Industrial Gas Facility in **Signal Hill, CA**. Encore also operates a branch store and showroom in **Ontario, CA**.

Specialty, Industrial and Bulk Gases

**Welding, Industrial and Safety Supplies
and Equipment**

Industrial Gases

With a comprehensive offering of both **pure gases and gas blends**, Encore supplies the exact gases you need in the volumes and vessels you require. Our warehouses are fully stocked with a complete line of industrial gases, including: argon, oxygen, nitrogen, helium, hydrogen, propane, Chemtane 2 fuel gas and more. **Compressed gas cylinders, six packs, sixteen packs, liquid dewars and disposables** are available for pickup or delivery. We also stock a **full line of gas handling equipment**, including valves, regulators, flow meters, purifiers, filters and more, so a single call gives you everything you need to get to work quickly.

**Gases for a
wide variety
of industrial
applications**

Specialty Gases

**On-Site Gas
Analysis Lab**
**Certificates of
Analysis**
**Large Vessel
Inventory**
**Cylinder Tracking
Program**
**Experienced
Technicians**
**24-7 / 365
Emergency
Service**

Encore's **ultra high purity gases, calibration gases and special custom blends** meet your exacting specifications. Our trained and certified technicians perform scheduled, digitally audited filling equipment calibrations, and they inspect, prepare and audit the history of each on-site specialty gas cylinder before it is filled. All specialty gases filled and certified at Encore's Los Angeles area gas facility and laboratory are accompanied by Certificates of Analysis. Because we fill and certify at our own facility, we can provide **swift turnaround** and timely pickup or delivery. Whether you need a single gas of ultra high purity or a multiple minor component mix, Encore has the technology, facilities, experience and procedures to provide the highest quality specialty gases available.

Encore Bulk / Microbulk Services

24 / 7 bulk / microbulk fill level and usage monitoring

Mil-spec and AWS certifications available

Remote fill box available

Lot testing for specific applications (full-load analysis)

Fast 24/7 response to accommodate urgent needs

Encore Bulk and Microbulk Services are custom tailored for end users with higher gas volumes and a need for **reliable, convenient and continuous supply.**

Enhance safety and reduce costs associated with cylinder handling, while also maintaining higher, more consistent product purity levels.

Gas services and management

Advanced Cylinder Management

Don't pay for returned cylinders. Encore's Advanced Cylinder Management system keeps track of your cylinders with pinpoint accuracy. **Barcode tag IDs** and serial numbers on your monthly cylinder statement, **on-site cylinder scanning**, integrated manifest documents, and **mobile order receipts** with full transaction details, time stamps and signatures provide peace of mind that you're only billed for the cylinders you actually use.

Gas Services

As a full-service distributor, Encore provides a comprehensive range of gas services, including:

- Gas system design and installation**
- Turnkey installations**
- Piping and plumbing services**
- Technical service**
- Apparatus service and repair**
- Gas equipment sales and rental**

Abrasives

Much more

Welding Supplies and Equipment

With a comprehensive selection of welding and industrial equipment and supplies from the **industry's most respected brands**, Encore is your destination for the best in MIG, TIG and stick welding machines, generators, power tools, gas outfits, filler metals, abrasives and more.

Safety and PPE

Through Encore, you can source all the **best quality and most highly regarded safety gear and apparel**, including: welding hoods; hard hats; face shields; respirators & cartridges; safety glasses; jackets & gloves; screens, curtains & heat blankets; fume extractors; ear plugs; welding caps; first aid supplies and other necessities.

Gas Outfits and Apparatus

From oxy-fuel and propane torches and accessories to regulators and flowmeters to welding and cutting outfits, Encore provides **everything needed for metal working and gas welding**.

**What you need,
when and where
you need it**

Delivery or Will Call

With our Southern California-based fleet of specialized delivery vehicles, Encore provides **reliable, accurate, on-time dock-to-dock service for both gases and hardgoods**. If you prefer, you can elect to pick up your order at one of Encore's Southern California showrooms, located in Long Beach and Ontario.

National Scale Buying Power

As an active member of the Independent Welding Distributors Cooperative (IWDC), Encore has access to national-scale purchasing programs and a **nationwide network of independent welding and industrial supply distributors**. This enables us to offer extremely competitive prices on industrial, specialty and medical gases as well as related equipment, hard goods and consumables – and to service customers across the U.S.

Best in class customer service

Dedicated Account Management

As an Encore customer, your business benefits from the **combined expertise of the entire Encore team** through a dedicated account manager who understands your challenges and is committed to helping you meet your goals and objectives.

Your Encore account manager quickly gets to know the ins and outs of your particular business and is **hands-on with everything you need**, including: vendor managed inventory; inventory monitoring; order processing, management and fulfillment; business process improvement planning; and day-to-day service requirements as well as urgent, **on-demand emergency service**.

Onsite Welding Process Improvement and Safety Training

Using both in-house staff and direct-from-manufacturer resources, Encore offers on-site welding process improvement and safety training to keep your staff up to date on the latest technology and industry best practices.

Service and Repair

Even the heaviest duty tools and equipment occasionally need maintenance and repair, and Encore is here to help. Turn to Encore to give your welding equipment, gas apparatus, power tools and other equipment the TLC they deserve.
